Bulacan, PH • +63 977 485 5489 • [alas.dev@outlook.com](mailto:alas.dev@outlook.com) • [linkedin.com/in/alasdev](https://www.linkedin.com/in/alasdev) • [acelabador.vercel.app](https://acelabador.vercel.app)

## Work Experience

### Software Engineer (Contractual)

Nov 2023 – Jun 2025

Syrincal Trading, OPC

Bulacan, PH

- Contracted as the sole architect and developer of a scalable B2B ordering platform, integrating supply chain, inventory management, and delivery tracking into one unified system using Next.js, and collaborated closely with the operations team to align it with real-world workflows—resulting in doubled operational efficiency and reduced order processing time
- Managed maintenance, performance optimization, and feature enhancements to meet evolving business requirements, ensuring platform stability, responsiveness, and adaptability as the company scaled

### Full Stack Developer (Internship)

Jan 2025 – Apr 2025

Bone Fix Metal Craft Inc.

Metro Manila, PH

- Developed a full-stack PHP-based custom CMS with admin dashboard, enabling the product team to manage orthopedic implant data and physicians to access clinical information and usage guidelines on-demand; implemented gated-access controls to ensure data confidentiality—this eliminated manual requests and reduced field agent workload

### Web Developer (Freelance)

Sep 2024 – Dec 2024

D.R.A. Jewelry

Bulacan, PH

- Delivered a mobile-first, fully responsive React website during a 3-month freelance engagement. Implemented SEO best practices to boost organic visibility, set up Google Analytics to track user behavior and guide future optimizations, and integrated a Web3Forms-powered private consultation scheduler.

### Social Media Manager (Remote, Part-Time)

Jun 2023 – Jun 2024

We Whiten

Utah, USA

- Managed day-to-day social media marketing operations across social media platforms—including campaign planning, lead generation, client tracking, and appointment coordination—boosting lead conversion by 40% and doubling customer interest
- Planned influencer collaboration campaigns, recruiting micro-influencers to produce branded content, which drove a 50% increase in referral traffic and a 20% uplift in overall engagement

## Projects

### OJTfolio – Internship Progress Tracker

Next.js | Supabase | OAuth

Built a SaaS tool for on-the-job training students to log daily progress, upload documentation, and auto-generate weekly reports—streamlining compliance tracking and report submission.

### E-Registrar – Capstone Project

React | Electron | Firebase

Developed a desktop app with kiosk support and real-time email notifications to optimize student service flow in registrar offices—reducing wait times and improving operational throughput

## Education

### Our Lady of Fatima University

July 2025

Bachelor of Science in Information Technology

## Certificates

- IBM Front-End Developer
- Meta Front-End Developer
- Google Project Management
- IBM Full-Stack JavaScript Developer
- US-ASEAN STIC Industry Professional Credentials Track
