Work Experience

- Software Engineer**
Syrincal Trading, OPC

Nov 2024 – Jun 2025
Contract | Hybrid | Bulacan, PH

 - Designed and developed a centralized ordering and inventory management system that replaced manual Excel-based workflows, supporting 50+ client accounts and approximately 1,000 monthly orders
 - Collaborated directly with the CEO to analyze operational requirements, identify workflow inefficiencies, and implement scalable software solutions
 - Owned the full software development lifecycle, including requirements gathering, system design, development, testing, deployment, and maintenance
- Full Stack Developer Intern**
Bone Fix Metal Craft Inc.

Jan 2025 – Apr 2025
Internship | Hybrid | Metro Manila, PH

 - Developed a customized WordPress-based content management system for organizing and delivering technical product documentation and other product resources to medical professionals
 - Implemented structured content workflows and role-based access controls to manage sensitive business information and control user permissions
- Freelance Web Developer**
D.R.A. Jewelry

Sep 2024 – Dec 2024
Contract | Hybrid | Bulacan, PH

 - Developed and deployed a customer-facing website to improve digital presence, brand visibility, and customer engagement
 - Managed the complete web development lifecycle, including requirements analysis, UI implementation, testing, deployment, and client handoff
- Social Media Manager**
WeWhiten

Jun 2023 – Jun 2024
Part-time | Remote | Utah, USA

 - Managed digital campaigns, customer tracking workflows, appointment coordination, and lead-generation activities
 - Increased lead conversion by 40% and doubled customer interest through marketing optimization and workflow improvements
 - Initiated influencer partnerships that increased referral traffic by 50%, improved engagement by 30%, and expanded brand reach
